

MMG

CAPITAL MANAGEMENT
& TRUST CO.

PRESENTS

**THE PRIVATE
WEALTH MANAGEMENT
BLUEPRINT**

WHY YOU ARE HERE

Making money is one thing. Keeping it is another. In our litigious society free-loaders and legal sharks are always circling looking for a free meal. Regulators seem to be intent on making business success an increasingly difficult task. Bankrupt governments are continually legislating creative new ways to 'partner' in your success. Privacy is fast becoming a thing of the past and with it your personal security also is greatly jeopardized. You are a sitting duck for predators.

Traditional methods to protect assets and reduce liabilities are very expensive and do little more than shift liabilities to another entity all the while the complex compliance and maintenance requirements remain largely the same albeit in the name of another entity which you are still ultimately responsible for.

It's time to come up with new solutions to age old problems. It's time to take charge of your own destiny, think for yourself, manage your own affairs and stand strong on the law as you escape the mundane entanglements which have held you back from retaining the fruits of your labor and reaching your full potential.

When successful, the added value you achieve will enable you to leave a lasting legacy for your family and progeny and your life's work will be a lasting testament to you and your wisdom for generations to come.

This is why we are here.

OUR GENERAL PROPOSAL

MMG brings you the following proposal;

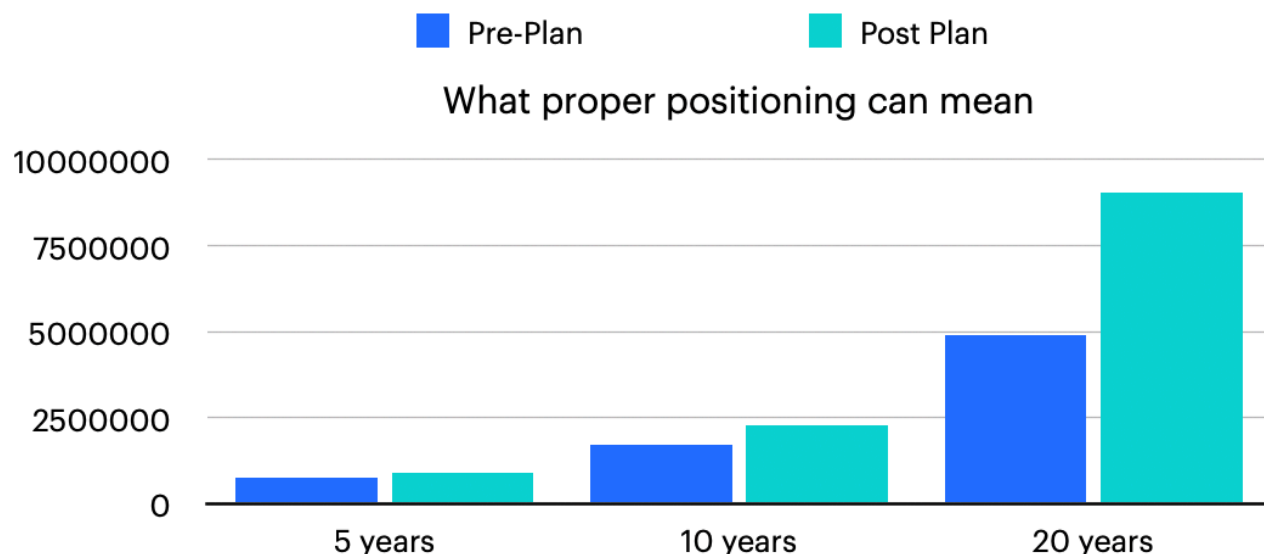

Based on the questionnaire you will fill out (link below), we'll have a private consultation to get a better idea on your situation and what your needs might be. With this information we'll present a customized solution to help you achieve your goals more efficiently, more securely and more profitably than you perhaps ever thought possible. And, oh by the way, we expect it will be more cost effective than you thought possible as well.

Some of the common objectives we seek are to:

- Streamline the ease of business management requirements
- Insulate assets from potential predatory attacks so you have a lasting legacy
- Create a more efficient environment for your wealth to grow and reduce the drag from heavy taxation and compliance costs.
- Increase your privacy and security.

Let's just look at a hypothetical illustration for example. Let's say that under your current circumstances your business and investment income of \$100k annual is subject to a 40% average tax rate between corporate taxes and then capital gains and/or personal income taxes on dividends or distributions and the growth rate is given at 12% annual and the \$100k is invested at the beginning of each year. These will be the 'given' factors in the Pre-Plan example below.

Then, the Post-Plan illustration would represent the same cash flow input of 100k annual but the growth reflects the results in a 'tax exempt' environment with the same rate of return.

The difference is \$120,000 in 5 years, nearly \$700,000 in 10 years and \$4.14 million in 20 years merely by positioning your assets in the proper fashion to begin with. Is that worth considering?

OUR PROPOSAL TO YOU...

...may Include the following facilities;

1. Private consulting to guide you to achieve maximum efficiency, privacy and protection regarding your current business structure.
2. Specific recommendations for enhancements.
3. A very unique and private business trust structure created as a Special Purpose Vehicle intended to be the hub of your 'Private Operations' which would manage and grow liquid assets in a completely tax exempt environment. This entity is fully entrenched in and supported by law. This may also be utilized as an International holding company sprouting off additional domestic or International entities to be created for specific purposes.

4. Consulting and support in creating additional domestic entities and banking if needed. These can tie into the overall business network of the holding company.
5. Domestic and international pre-set banking facilities which are crypto friendly
6. Online trust account management with online banking software
7. Liquidity provided for trust related business purposes. Said liquidity may be had via crypto/fiat debit card, bank wires, independently accessed trust cash account.
8. Access to our Swiss precious metals vault where metals can be bought, sold, transferred, held and managed online in various forms of coins, bars, ingots.
9. Access to our private crypto exchange services.
10. Crypto and fiat friendly debit card
11. Professional registered trustee services to assist and support in management and which offers;

MMG PROFESSIONAL SERVICES MAY INCLUDE;

- Domestic and/or international entities created for specific purposes to meet your needs
- A necessary role in the creation of trust documents and supporting transactions
- Proper registration in a well regulated modern jurisdiction
- The confidence of being duly authorized to operate as a trust company and subject to the financial regulatory authorities
- Fiduciary responsibility for proper execution of the contract
- Fulfillment on back-end consultations on;

- Structuring new entities in proper relation to the holding company
- Assistance in structuring compliant transactions for particular needs
- Providing a high level licensed online banking software for account management with full audit trail
- Secure private communications in the PAMS (Private Asset Management System)
- Maintenance of domestic and international banking facilities available for immediate use.
- The ability to set up anonymous sub accounts for banking which include a separate IBAN (International Bank Account Number) for the trust which allows the trust manager to manage the account independently.
- The ability to set up anonymous sub accounts for trading the markets with a registered international brokerage
- A bridge between fiat and crypto - the means to use the trust for crypto exchange for any purpose with zero capital gains
- Consultation on making large transactions to expatriate funds using international tax treaties on licensing arrangements.
- Access to our Swiss Gold Bank

Our proposal will include consideration of your customized needs and we welcome the opportunity to serve you in a way that will have a lasting impact on your Legacy! We suggest that you get with your consultant to begin the process of initiating a custom proposal to meet your specific needs.

Sincerely

Your friends at MMG Capital Management & Trust Co,
